Association of Energy Engineers®

July 9, 2010

Mr. Steve Melink
President
Melink Inc.
5140 River Valley Rd.
Milford, Ohio 45150

Dear Mr. Melink:

The Association of Energy Engineers is pleased to announce that the **Melink Corporate Headquarters Renewable Energy Project** has been selected by the AEE Awards Committee to receive the **2010 Renewable Energy Project of the Year** Award. Congratulations from all of us at AEE.

AEE confers prestigious awards each year to individuals and organizations that have achieved national and international prominence in promoting the practices and principles of energy engineering and energy management.

This award, recognizing the value of such projects in the energy industry, will be presented on the evening of Wednesday, December 8, 2010, at the Washington Convention Center in Washington, D.C. The AEE Awards Banquet will be held in conjunction with the 2010 World Energy Engineering Congress. It is our hope that you will be present to accept this award. We will contact you soon with further details.

An official press release will be issued a few days prior to the presentation of the awards. In the meantime, feel free to share this information with your colleagues, friends, and family.

Again, may we extend the warmest congratulations from all of us at AEE on having your project chosen for this high honor.

Cordially,
